### **DETAILED ACTION**

Receipt of applicants' amendments and remarks submitted April 21, 2003 is acknowledged.

1. The corrected or substitute drawings were received on April 21, 2003. These drawings are acceptable.

### ***Claim Rejections 35 U.S.C. 103***

2. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

3. Claims 1-9, 12, 13, 15-23 are rejected under 35 U.S.C. 103(a) as being unpatentable over Cauwet-Martin (US 6,488,782) for reasons set forth in the prior office action.

### ***Response to the Arguments***

4. Applicants' remarks and amendments submitted April 21, 2003 have been fully considered, they are persuasive with respect to the rejections under 35 U.S.C. 112, and the rejections under 35 U.S.C. 103 over Bolich Jr., but are not persuasive to the rejections set forth above for reasons discussed below.

5. In response to applicant's argument that the references fail to show certain features of applicant's invention, it is noted that the features upon which applicant relies (i.e., the particular size of oil droplet in the emulsion, or conventional procedure for preparing the emulsion) are not recited in the rejected claim(s). Although the claims are interpreted in light of the specification,

Art Unit: 1617

limitations from the specification are not read into the claims. See *In re Van Geuns*, 988 F.2d 1181, 26 USPQ2d 1057 (Fed. Cir. 1993).
